

GUEST PARKING SOFTWARE

The easiest solution for universities and colleges to manage guest parking on campus. Guests can register themselves in just a couple of steps:

- 1 A unique URL or QR code is shared with each department
- 2 Departments share the URL with their sponsored guests
- 3 Guests scan QR code and enter their license plate number
- 4 Data sends to enforcement in real time

The most flexible and customizable guest parking solution - great for daily sessions as well as scheduled events. Parkers can register upon arrival or in advance!

EASY REPORTING

Access a list of active vehicles, search for specific vehicles, and run reports for a desired time period so you can bill back for usage with ease.
