PARKING VALIDATION SOFTWARE

The **easiest solution** for restaurants to validate and manage their customer parking. Customers can register their own plates in just 3 simple steps:

1 Scan QR Code with camera app or go to offstreet.io and enter location #10006

2 Enter license plate number and click "next"

3 Click "Park" and data sends to enforcement in <u>real time</u>

Incentivise customers to visit your restaurant by providing simple, validated parking.
